Introduction

Medical Oncology at Cliniques Universitaires Saint-Luc is 25 years old!

On this occasion, we have the pleasure to invite you to our 25th anniversary symposium Friday 13 September in the Auditoire Maisin at UCL.

The treatment of our cancer patients has dramatically changed. We have moved from a one-size-fits-all treatment to personalized cancer care. We have put together a nice program that will not only highlight some of the major advances performed in the treatment of cancer patients during these last 25 years but also the achievements of our department of medical oncology in cancer care, research, and teaching.

This scientific meeting will also look towards the future and outline some important challenges that we will face in the next decade like personalized cancer care, geriatric oncology and translational/clinical cancer research.

So please join us for this symposium and celebrate our 25th anniversary!

Jean-François Baurain
Frank Cornélis
François Duhoux
Yves Humblet
Jean-Pascal Machiels
Filomena Mazzeo

Program

Friday 13 September 2013

14.15 Welcome: Marc Hamoir, Jean-Pascal Machiels

14.45 Targeting endothelial metabolism: principles and strategies
Peter Carmeliet, Laboratory of Angiogenesis & Neurovascular link Director
Vesalius Research Center (VRC) - VIB Department of Oncology, University of Leuven

Chair: **Peter Vuylsteke**, Clinique et Maternité Sainte-Elisabeth, Namur

15.15 Evolution of breast cancer treatment in the last 25 years: from one-size-fits-all to personalized therapy
François Duhoux, Université catholique de Louvain, Brussels

Chair: **Bertrand Filleul**, Entité Jolimontoise, Haine Saint-Paul

15.45 Cancer immunotherapy: results and challenges
Pierre Coulie, de Duve Institute, Université catholique de Louvain

Chair: **Lionel D'Hondt**, CHU Mont-Godinne-Dinant

16.15 Coffee break

16.45 Clinical research in geriatric oncology: myth or reality?
Etienne Brain, Saint-Cloud and Institut Curie, Paris

Chair: **Lionel Duck**, Clinique Saint-Pierre, Ottignies

17.15 The future of academic cancer clinical research
Françoise Meunier, EORTC, Director General

Chair: **Jean-Luc Canon**, GHdC, Charleroi

17.45 Perspectives in Medical Oncology at UCL
Jean-Pascal Machiels, Université catholique de Louvain

18.00 Cocktails
